

MCCIA Electronic Cluster Foundation

MECF is a Common Facilities Center (CFC) promoted by Maharashtra Chamber of Commerce, Industries and Agriculture (MCCIA) under the Electronics Manufacturing Cluster (EMC) scheme, aimed at creating and strengthening the infrastructure ecosystem for the electronics manufacturing industry. One of the biggest CFC approved by MeitY under EMC scheme.

Our Services Cater to Electronic Industry, Consumer Electronics, Medical Devices, Electric Vehicles, Start-ups, Automobile and Telecommunication.

- M** Maximizing the potential for Electronic Ecosystem's growth in and around the region.
- E** Enabling innovations through services
- C** Competitive and faster Services under one roof
- F** Facilitating wider range of Industry like MSME, start-ups etc. for saving their cost and time in the product development

NABL accredited facility.

Designed by MCCIA in consultation with top industry experts to address industry needs.

Precision Testing Across All Levels - From Components to Products compliant with International Standards.

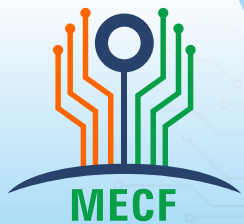

Test conducted as per particular IEC/EN/ISO/BIS/IS standards.

One of our unique selling points (USP) lies in providing clients with the invaluable opportunity to collaborate directly with distinguished Industry Leaders such as **TUV Rheinland (India) Pvt. Ltd.** and **Cyronics Instruments Pvt. Ltd.** who are our **Operating Partners**

MCCIA Electronic Cluster Foundation

Key Benefits

- Specialized Expertise- Pay for use model
- Timely services at market-competent rates
- Equipment available on rent basis required during the product development
- Availability of the domain expert on call basis / handholding
- Confidentiality and IP Protection

1. EMI/EMC Services by TUV Rheinland (India) Pvt. Ltd.

- 10m Semi-Anechoic chamber
- Radiated & Conducted Susceptibility
- 3 PH Voltage Dips & Interruptions
- Harmonic Current Emissions
- Flicker Emissions
- Electrostatic Discharge (ESD)
- Magnetic Field Immunity
- EFT and Surge Immunity
- Automotive Transient System

2. Test and Certification Services by TUV Rheinland (India) Pvt. Ltd.

- IP Testing
- Mechanical Testing
- Environmental Testing
- Photometry testing
- Electrical Safety and Reliability Lab
- Vibration testing

3. Design Centre

- PCB Design Tools
- FPGA Design Tools
- 3D EM Analysis
- Embedded Development tools
- EDA Tools
- Ansys Electronic Enterprises suite
- Hardware tools and equipments such as DMM, DSO, Benchtop DMM, Programmable power supply, Soldering station

4. Test and Measurement Services by Cryonics Instruments Pvt. Ltd.

- Advanced Measurement Instruments
- Customized Test Solutions
- Comprehensive Testing Capabilities
- Solar Simulation and Monitoring
- PCB Soldering, SMT Soldering & BGA Soldering etc.
- Pre-Compliance Testing for EMI
